INDEX TO AUTHORS

ARMSTRONG, E. C., observations on the nature of the oestrous cycle and on the effect upon it of the milk factor in mice of two inbred strains, differing in mammary cancer incidence, 59

BADGER, G. M., the carcinogenic hydrocarbons: chemical constitution and carcinogenic activity, 309

BILLINGHAM, R. E., and MEDAWAR, P. B., "infective" transformations of cells, 126

BLYTH, J. S. S., see *Greenwood, A. W.*

BOYLAND, E., CLEGG, J. W., KOLLER, P. C., RHODEN, E., and WARWICK, O. H., the effects of chloroethylamines on tumours, with special reference to bronchogenic carcinoma, 17

BRUZZONE, S., ELGUETA, H., IGLESIAS, R., and LIPSCHUTZ, A., oestrogen-induced fibroids of the thoracic serosa, 267

BUSK, T., CLEMMESEN, J., and NIELSEN, A., twin studies and other genetical investigations in the Danish Cancer Registry, 156

CARR, J. G., chemically induced mutation, 132

——— see *Greenwood, A. W.*

CLEGG, J. W., see *Boyland, E.*

CLEMMESEN, J., see *Busk, T.*

CRABTREE, H. G., some effects of thiol-compounds on tumour induction by carcinogenic hydrocarbons, 281

CURETON, R. J. R., squamous cell carcinoma occurring in asbestosis of the lung, 249

DARLINGTON, C. D., the plasmagene theory of the origin of cancer, 118

DEMEREC, M., mutations induced by carcinogens, 114

DMOCHOWSKI, L., mammary tumour inducing factor and genetic constitution, 94

DYSON, W. H., see *Patey, D. H.*

ELGUETA, H., see *Bruzzone, S.*

FLAKS, J., influence of testosterone propionate on the induction of subcutaneous tumours in mice by 20-methylcholanthrene, 386

——— the inhibitory influence of 20-methylcholanthrene on the action of chorionic gonadotrophin on the ovaries of immature mice, 395

FODDEN, J. H., the duodenal spread of pyloric carcinoma, 239

GORER, P. A., the significance of studies with transplanted tumours, 103

GREENWOOD, A. W., BLYTH, J. S. S., and CARR, J. G., indications of the heritable nature of non-susceptibility to Rous sarcoma in fowls, 135

GUNZ, F. W., culture of human leukaemic blood cells *in vitro*: technique and the growth curve, 29

——— culture of human leukaemic blood cells *in vitro*. Normal and abnormal cell division and maturation, 41

HALL, W. H., the role of initiating and promoting factors in the pathogenesis of tumours of the thyroid, 273

HARNETT, W. L., a statistical report on 2529 cases of cancer of the breast, 212

HESTON, W. E., role of genes and their relationship to extrachromosomal factors in the development of mammary gland tumours in mice, 87

HOGREFFE, G., genetic studies on leukaemia in mice, 108

IGLESIAS, R., see *Bruzzone, S.*

IVERSEN, S., the metabolism of 3:4-benzpyrene in human beings after intravenous injection, 301

KARN, M. N., see *Penrose, L. S.*

KEMP, T., heredity in human cancer, 144

KENNAWAY, E. L., the racial and social incidence of cancer of the uterus, 177

KIRBY, A. H. M., biological tests with cholesterol esters of unsaturated acids, 70

——— further experiments in mice with *p*-diazoaminobenzene, 290

——— the action of 2-aminofluorene in three pure strains of mice, 294

KOLLER, P. C., see *Boyland, E.*

——— inheritance of xeroderma and its chromosome mechanism, 149

KORTEWEG, R., genetically determined differences in hormone production a possible factor influencing the susceptibility to mammary cancer in mice, 91

LASNITZKI, I., and WILKINSON, J. H., the effect of acridine derivatives on growth and mitosis of cells *in vitro*, 369

LIPSCHUTZ, A., see *Bruzzone, S.*

LUDFORD, R. J., factors determining the action of colchicine on tumour growth, 75

MACKENZIE, H. J., see *Penrose, L. S.*

MEDAWAR, P. B., see *Billingham, R. E.*

MITCHELL, J. S., clinical trials of tetra-sodium 2-methyl-1:4-naphthohydroquinone diphosphate, in conjunction with X-ray therapy, 351
NIELSEN, A., see *Busk, T.*

PATEY, D. H., and DYSON, W. H., the prognosis of carcinoma of the breast in relation to the type of operation performed, 7
PENROSE, L. S., MACKENZIE, H. J., and KARN, M. N., a genetical study of human mammary cancer, 168

RAVEN, R. S., secondary malignant disease of the heart, 1
RHODEN, E., see *Boyland, E.*
ROBINSON, A. M., the excretion of 17-ketosteroids in men of different age-groups, with special reference to prostatic cancer, 13
——— polarographic analysis of normal and pathological sera, 360
ROBINSON, R. H. M., see *Selbie, F. R.*
——— see *Selbie, F. R.*
SALAMAN, M. H., haemagglutination by extracts of tumours and of some normal tissues, 253
SELBIE, F. R., and ROBINSON, R. H. M., incidence of carcinoma in transmissible papillomatosis of the domestic rabbit, 48
——— ROBINSON, R. H. M., and SHOPE, R. E., Shope papilloma virus: reversion of adaptation to domestic rabbit by passage through cottontail, 375
——— and THACKRAY, A. C., lung adenomas induced by urethane in CBA mice, 380
SHOPE, R. E., see *Selbie, F. R.*
SMITHERS, D. W., family histories of 459 patients with cancer of the breast, 163

THACKRAY, A. C., see *Selbie, F. R.*
WARWICK, O. H., see *Boyland, E.*

WILKINSON, J. H., see *Lasnitzki, I.*
